IDPs

**WeDaVinci** is a web-based, NLP-powered collaboration software. We give people a platform for their ideas, to showcase their expertise and motivate them to collaborate on innovative endeavors.

WeDaVinci is supported by EXIST and has been part of the LMU Entrepreneurship Center. After several successful projects, e.g. with the UN World Food Programme Innovation Accelerator on “Zero Hunger”, we are now embarking on projects with a large userbase, taking WeDaVinci to the next level.

## IDP Topics

- **Innovation Management KPI dashboard: #Data Visualization #Dataviz #Infoviz #D3 #KPIs #Innovation**  
An intuitive and interactive dashboard on the key innovation KPIs is highly valuable to our customers. It allows them to gain insights into the value-add provided by our software. You will think about the best ways to display such information and evaluate existing libraries. Finally, you will design and implement a working solution.
- **Game Module: #Frontend #UX #Game #Gamification #Motivation #Design**  
Design a web-based game module that generates a great user experience and encourages teams to both compete and work with each other. Display achievements and rewards, allow for fun interaction. At WeDaVinci, we can provide you with quite some input on game elements and gamification.
- **Additional IDPs: Data Pipeline, Natural Language Processing and Machine Learning** (ask us)

## Our Offer
